# DISNEY SHOWTIME

Culter Theatre Club

*"There's a terrific power to music. You can run any of these pictures and they'd be dragging and boring, but the minute you put music behind them, they have life and vitality they don't get any other way"*

Walt Disney

Walt Disney didn't read or write music or even play an instrument. Yet his influence upon music was, and continues to be so significant that composer Jerome Kern said: *"Disney has made use of music as language. In the synchronization of humourous episodes with humourous music he has given us the outstanding contribution of our time."*

So sit back and enjoy a collection of some of Disney's most popular music. You'll take a trip down memory lane but also be delighted by the music from more recent films ..... All in the irrisitable, hummable, and foot-tappable Disney style!
